

Diego Fuentes

Chicago, IL | Applying for: Senior Platform Engineer (Remote)

Experience

Platform Engineering Lead - Marrow Health Systems

2020 - Present

- Migrated Marrow's monolith to a service-oriented architecture across 18 months with zero unplanned downtime.
- Introduced infrastructure-as-code (Terraform) org-wide, cutting environment provisioning time from 2 weeks to 1 day.
- Built the on-call escalation tooling still in use by 3 engineering teams.

DevOps Engineer - Fenwick Logistics

2017 - 2020

- Automated nightly batch jobs for a regional freight tracking system.

Education

B.S. Information Systems, DePaul University
