

Marcus Doyle

Tampa, FL | Applying for: Senior Platform Engineer (Remote)

Experience

Senior DevOps Engineer - Vantage Cloud Systems

2021 - Present

- Re-architected the deployment pipeline for a 40-service platform, cutting release cycle time from 3 days to 4 hours and reducing on-call pages by 65%.
- Led migration of legacy VM workloads to Kubernetes across 3 regions, improving availability to 99.95%.
- Mentored a team of 4 junior engineers and standardized the team's incident response runbooks.

Platform Engineer - Redline Systems

2018 - 2021

- Maintained CI/CD tooling for a 12-person engineering org.
- Rotated through the on-call schedule for a customer-facing billing platform.

Education

B.S. Computer Science, University of South Florida
