

Priya Ramanathan

Austin, TX | Applying for: Senior Platform Engineer (Remote)

Experience

Senior Site Reliability Engineer - Fieldstone Analytics

2019 - Present

- Designed and rolled out a multi-region failover strategy for the core ingestion pipeline, cutting downtime incidents 80% year over year.
- Owned the observability stack (metrics, logs, tracing) for 60+ microservices.
- Ran quarterly game-day exercises simulating regional outages for the platform team.

Software Engineer - Cobalt Systems

2015 - 2019

- Built internal tooling for deployment tracking across 5 teams.

Education

B.S. Computer Engineering, University of Texas at Austin
