

Samuel Okoro

Atlanta, GA | Applying for: Senior Platform Engineer (Remote)

Experience

Staff Infrastructure Engineer - Northline Data Partners

2020 - Present

- Re-architected the deployment pipeline for a 40-service platform, cutting release time from 3 days to under 4 hours while reducing on-call pages by roughly 65%.
- Built a chargeback and cost-allocation system across 12 internal teams, saving approximately \$380K annually in cloud spend.
- Ran the SRE on-call rotation for a 24/7 logistics platform serving 200+ regional depots.

Site Reliability Engineer - Beacon Freight Co

2016 - 2020

- Owned uptime for a regional dispatch system.

Education
